Fireground Simulation Event

The Fireground Simulation Event (further described as the “assessment”) is designed to be a representative sample of job tasks in order to provide an accurate prediction of job performance. It is not an attempt to measure the candidate’s ability to perform the skills of firefighting.

While this assessment is scored on a pass/fail basis, there is a maximum cutoff time in which a candidate will no longer be allowed to continue. In order to pass the assessment, the candidate must make continuous effort to progress through each of the evolutions.

Eligible candidates will have the opportunity to attend an on-site orientation session prior to the actual assessment. The orientation session is optional, but strongly encouraged.

All candidates should come dressed appropriately to perform this assessment. Athletic attire to include shorts and t-shirt are recommended. Closed toe shoes are required.

APPLICANTS WITH PHYSICAL OR MEDICAL CONDITIONS OF ANY NATURE SHOULD:

- 1. CONTACT THEIR PHYSICIAN BEFORE TAKING THE PHYSICAL ABILITY TEST TO DETERMINE IF IT IS ADVISABLE TO TAKE THIS TEST.*
- 2. WITHDRAW FROM THE PROCESS IF THEY HAVE ANY CONDITION OR LIMITATION THAT COULD ENDANGER THEM IF THEY PARTICIPATED IN THIS TEST.*

The City of Taylor, the Taylor Fire Department, its agents, and employees do not assume any responsibility for an applicant’s health or medical condition or the effects that this assessment could cause. Further, the City of Taylor, the Taylor Fire Department, its agents, and employees accept no responsibility or liability for any injury an applicant might receive during the assessment. This assessment should be considered strenuous physical activity and as such carries a risk of injury, not limited to strained muscles, scrapes, scratches and/or bruises. Injuries should be reported immediately to the test proctors.

The Fireground Simulation Event includes: Rescue Maze, Aerial Ladder Climb, Charged Hose Drag, Equipment Carry, Ventilation Simulator, Body Carry and Ladder Raise.

Location: 200 Washburn, Street, Taylor Texas 76574

Fireground Simulation Event

Instructions and Details

Applicants are required to wear structural firefighting Personal Protective Equipment (PPE) and Self Contained Breathing Apparatus (SCBA) throughout the physical ability assessment. Structural firefighting PPE will consist of a bunker coat with the thermal and vapor liner, helmet, and gloves. A blacked out SCBA Face Piece will be worn only during Event 1: Rescue Maze. The remainder of the events will be performed without a face piece. All equipment will be provided by the Taylor Fire Department.

The assessment is evaluated on a pass/fail basis and must be completed within the maximum allowed time. Candidates must successfully complete all of the events to pass the assessment. Candidates must make continuous progress through the assessment.

Event 1: Rescue Maze

(maximum time allowed 2 minutes)

The candidate will enter the rescue maze and follow 100 feet of 1-3/4 inch hose through the rescue maze until they exit the other end.

The candidate must not lose contact with the hose. Contact for this event is defined as: "At least one hand on the hose at all times."

Failure point: (hitting any failure point means overall test failure and disqualification from continuing in the hiring selection process)

- Lose contact with hose (release).
- Exceed maximum time limit for event.

Event 2: Aerial Ladder Climb

Aerial ladder will be at a 70-degree angle and extended to 75 feet.

Candidate will climb the ladder using a "truck" belt and safety line.

Candidate must touch every rung while climbing up and climbing down the aerial ladder device.

Candidate must continuously climb and descend the ladder without stopping, except as instructed at the top.

Each candidate will be instructed to remain at the top climbing rung of the aerial for 10 seconds prior to descent.

A whistle will signify the completion of the 10 seconds. After the whistle is sounded the candidate must begin to descend the aerial ladder.

Candidate must remove ladder belt after dismounting the aerial apparatus.

After the candidate removes the ladder belt the next event, Event 3: Fireground Evolution, will start in 30 seconds.

Failure point: (hitting any failure point means overall test failure and disqualification from continuing in the hiring selection process)

- Skipping ladder rungs.
- Stopping continuous effort.

Event 3: Fireground Evolution

(maximum time allowed 6 minutes)

This event consists of five separate evolutions; A, B, C, D, and E.

A) Charged Hose Drag

B) Equipment Carry

C) Ventilation Simulator

D) Dummy Carry

E) Ladder Raise

Each evolution is described below.

Applicant must wait the full 30 seconds prior to starting Event 3: Fireground Evolution.

1st Early Start is a Warning

2nd Early Start is a Failure, thus disqualifying applicant from continuing along in the hiring selection process.

A) Charged Hose Drag

200 feet of 1-3/4 inch hose will be used for this event. This hose is to be charged and maintained at approximately 100 psi.

Nozzle shall be secured in the closed position for the test.

Each candidate will drag the hose a distance of 100 feet. Cones will be placed to clearly define the distance.

The applicant can "aim" the nozzle straight down or forward but not backwards. The candidate must maintain control of the nozzle throughout the entirety of this evolution. This is for the safety of the candidate and to minimize the possibility of damage to the equipment.

Warning point:

- Improper aiming of the nozzle.

Failure point: (hitting any failure point means overall test failure and disqualification from continuing in the hiring selection process)

- Exceed total time given for entire event.
- Lose control of the nozzle.
- Improper aiming of the nozzle.

B) Equipment Carry

The equipment used for this portion of the event will be a ventilation fan. The fan will be located on the ground inside a 3 feet x 3 feet area marked with paint or tape.

A cone will be placed and marked 75 feet past the 3 feet x 3 feet area. Each applicant must lift the fan and then carry it 75 feet to the cone, go around the cone and return it back to the 3 feet x 3 feet marked area.

The candidate must not allow the fan to touch the ground until it is returned to the 3 feet x 3 feet area.

Failure point: (hitting any failure point means overall test failure and disqualification from continuing in the hiring selection process)

- Exceed total time given for entire event.
- Fan touches ground prior to reaching return area.

C) Ventilation Simulator

An eight (8) pound lead shot hammer will be used for this event.

The candidate must drive the sled 5 feet with the sledge hammer.

The candidate must maintain control of the sledge hammer throughout this event.

No pushing or pulling of the sled by the hammer. The candidate will receive one (1) warning for each violation.

Failure point: (hitting any failure point means overall test failure and disqualification from continuing in the hiring selection process)

- Exceed total time given for entire event.
- Lose control of the hammer.
- No pushing or pulling the sled with hammer. 1st violation will result in a warning; the second warning will result in failure.

D) Victim (Dummy) Carry

The dummy victim used for this event will weigh approximately 150 pounds.

When carrying the dummy, it may be either dragged or carried in any fashion as long as the head is not dragged on the ground.

The candidate must advance the dummy 50 feet to a cone.

The entire dummy must pass the finish line that will be clearly marked by a line and/or cones.

Failure point: (hitting any failure point means overall test failure and disqualification from continuing along the hiring selection process)

- Exceed total time given for entire event.
- Dummy's head touches the ground while moving.

E) Ladder Raise

Standing in a designated 2 foot x 2 foot square 6 inches from the ladder, the candidate will fully raise (extend) and lower the top (fly) section of a permanently fixed 24 foot ladder by using the hand-over-hand method.

The candidate must not allow his/her feet to step outside of the lines of the box.

The candidate may not allow the mechanical locks of the ladder to engage and bear the weight of the fly section.

The candidate must not allow the rope to slide through his/her hands to lower the fly section or step out of the designated square. The candidate will receive one (1) warning for each violation.

Warning point:

- First violation will result in a warning of any of the following:
 - Steps outside of the lines of the box.
 - Allows rope to slide through hands.
 - Does not use hand over hand method.
 - Allows mechanical locks to engage.

Failure point: (hitting any failure point means overall test failure and disqualification from continuing in the hiring selection process)

- Exceed total time given for entire event.
- Second violation of any of the following will result in failure:
 - Steps outside of the lines of the box.
 - Allows rope to slide through hands.
 - Does not use hand over hand method.
 - Allows mechanical locks to engage.
